Tutorial

Task

Given an integer, ***n***, and ***n*** space-separated integers as input, create a tuple, ***t***, of those ***n*** integers. Then compute and print the result of ***hash(t)***.

Note: `hash()` is one of the functions in the `__builtins__` module, so it need not be imported.

Input Format

The first line contains an integer, ***n***, denoting the number of elements in the tuple.

The second line contains ***n*** space-separated integers describing the elements in tuple ***t***.

Output Format

Print the result of ***hash(t)***.

Sample Input 0

```
2
12
```

Sample Output 0

```
3713081631934410656
```
